

AI HUB GHANA

PLACEHOLDER – NOT A LOGO

INITIAL BRAND GUIDELINE
DRAFT · 26 AUGUST 2026
ACCRA · OPERATIONS FROM 2026

READ FIRST

No logo exists yet, and the name is not final. The lockup above is the name set in type as a stand-in. This sheet is a first draft to keep work consistent in the meantime – it is not the finished brand. Once the name is agreed and the identity is designed, this is replaced in full.

COLOUR

Chalk is the default ground, never white. Brick is dark: nothing darker than paper meets contrast on it, so anything sitting on brick is set in paper.

TYPEFACE

THE BRIDGE BETWEEN GHANA AND EUROPE.

Mona Sans – Google Fonts, open licence. One variable family, weight 200–900 and width 75–125, so no second font is needed.

Statement	800 caps	–0.055em
Heading	700–800	–0.03em
Body	400	0
Kicker	800 caps	0.18em

RULES THAT MATTER

- Paper as the ground, not white.
- Real photographs of real people.
- One call to action per page.
- Colour does the dividing, not boxes.
- No gradients, glows or drop shadows.
- No stock photography.
- No AI-generated imagery.
- No marketing adjectives.

SHAPE

Pills, and one or two oversized rounded corners per shape – never all four, never a cut corner. The curve is the signature.

VOICE

Plain and specific. Caps for statements of three to six words; sentence case for anything carrying an argument. Never a paragraph in caps.
